

[iW4]

Plain and simple, the iW4 is just nuts. It really is. Something about the three-way, dual woofer with the mid-tweeter cluster from our Classic series probably has a great deal to do with it. So does the high-power handling capacity. As does the fact they fit between 16" studs either horizontally or vertically. But what really drives these suckers through your roof is the fact that they go in a wall at all. The sonics are just nuts. It's almost hard to believe that sort of detail and accuracy coming out of anything, let alone a wall.

[SPECIFICATIONS]

System type:	In-wall loudspeaker
Configuration:	3-Way Infinite Baffle
Woofers:	2 x 5.25" long-throw polypropylene cone
Midrange:	2" fluid cooled aluminum dome
Tweeter:	.75" fluid cooled aluminum dome
Magnetic Shielding:	None
Crossover Frequency:	750Hz, 5kHz
Crossover Slopes:	18dB/octave LP, 12dB/octave Bp, 18dB/octave LP, 18dB/octave HP
Response:	50Hz - 20kHz, +/- 3dB
Sensitivity:	86dB (2.83V@1m)
Impedance:	8 ohms nominal
Recommended Amplifier Power:	20W/ch minimum, 150W/ch maximum
Inputs:	2 each professional grade, gold plated spring posts
Weight:	10 lbs
Cutout Dimensions:	9.125" x 13.75"
Bezel Dimensions:	10.125" x 14.75" W
Depth Behind Wall:	3 1/9"
Finish:	Matte white (paintable)
